Privacy Policy

AI Chat ("we," "our," or "us") respects your privacy and is committed to protecting your personal information. This Privacy Policy explains how we collect, use, process, and disclose information when you use the AI Chat mobile application (the "App").

By using the App, you agree to the practices described in this Privacy Policy.

I. General Information Collection

We do not require account registration and do not directly store personal information on our own servers. However, certain data may be processed by third-party service providers as described below. To be specific, we do not require consumers to register before downloading the application, nor do we keep track of consumers' visits to our application. We do not operate our own backend servers for storing user accounts or chat history.

II. Information You Voluntarily Provide

The only situation in which we may get access to your PII is when you personally decide to email us your feedback or to provide us with a bug report. The PII we may get from you in that situation is strictly limited to your name, email address, and your survey response only.

In the above situation, we guarantee that your PII will only be used for contacting you and improving our services. We will never use such information (e.g., your name and email address) for any other purposes, such as to further market our products, or to disclose your personal information to a third party for commercial gains.

It should be noted that whether to send us your feedback or bug report is a completely voluntary initiative based upon your own decision.

III. User Content and Responsibilities

For the purposes of this Agreement, **User Content** includes the text you enter into the message field, files you attach and send to the App, as well as any text, or other content generated by AI via the App.

Subject to your compliance with certain rules and restrictions outlined in our Terms of Use, you may dispose of, use, share, or otherwise exploit your User Content for your own purposes. However, any use of User Content is at your sole risk; i.e., you assume and bear all risks and responsibility associated with your use of User Content. It is your sole responsibility to ensure compliance with applicable laws while using the User Content.

Furthermore, due to the fact that we use third-party APIs for the purpose of processing and creation of AI-generated User Content, you hereby agree to be bound by and comply

with the terms of the respective providers' policies (e.g., the OpenAI Sharing & Publication Policy) during any sharing and/or publication of User Content.

IV. Third-Party AI Service Providers & Data Transfer

Please note that we engage third-party AI service providers, e.g., OpenAI, and potentially other service providers listed within the App, for the purpose of processing and creation of AI-generated User Content.

Consent to Data Transfer

By voluntarily entering any User Content (Input Content) and/or choosing an exact AI model into the App, you explicitly consent to the transfer of such data to the specific third-party AI service provider associated with the AI model you currently view and utilize within the App (who the data is sent to).

What Data Will Be Sent

The data transferred to these third-party providers is strictly limited to:

1. **User Content:** The text you voluntarily enter into the message field in the App and any files you attach/send to the App; and

2. **Anonymized Message Identifier:** A technical identifier required solely for processing the request and generating the response.

Core Functionality and Your Choices

This processing is necessary for the App's Core Functionality, generating an AI response using the model you have selected.

- If you do not wish to share data with AI services, please do not input any content into the chat interface.

- If you do not wish to share your data with a specific third-party AI service provider, you may select a different provider via the App's UI settings before sending your message.

We confirm that all third-party AI service providers listed in this section provide the same or equal protection of user data as stated in this policy. For further details on the privacy policies and practices of these specific providers, please review the policies of OpenAI. You may obtain a copy of the OpenAI API TERMS & POLICIES at https://openai.com/api/policies/service-terms/.

V. Advertising

Our app uses AdMob as an ads provider. The advertising provider wants to show ads that are relevant to you. For more information, please check https://support.google.com/admob/answer/6128543.

With your permission, the advertising providers may use personal data to enhance your advertising experience.

VI. Contact Us

If you have concerns about your PII being misused, or if you want further information about our privacy policy and what it means, please feel free to email us at **magicmoon.tech@gmail.com**. We will endeavor to provide clear answers to your questions in a timely manner.
